REPORTER

DEHRADUN, 3 Feb: Tula's Institute, in association with Nettech, organised a seminar on Cyber Crime, here, today. The seminar was of great importance because Cyber Crime is a big threat to India's online population today. Cyber Crime is related to invasion of privacy and identity theft which is followed by hacking, information theft and sabotage. Online money fraud is also high on the cyber crime list which includes theft of credit card information and banking information.

The speaker at the seminar was Swapan Purkait, a management graduate from Xavier's Institute of

Management, Bhubaneswar, and a research scholar from IIT, Kharagpur. The very experienced Purkait has conducted various training projects in institutions like IIM Kolkata, IIT Kharagpur, IIT Kanpur, BITS Mesra, Indian Air Force, Police Training Academy, Barrackpore, etc.

At the seminar, today, Purkait gave insights into cyber crime and the threats it poses to the people using the internet. The session lasted for an hour and he spoke about

phishing, email hacking, identity threat, key loggers, open proxy, viruses and Trojans. He also talked about the threats on the social networking sites and how

hacking was at an all time high on these.

The seminar was attended by the Media and the Police Department headed by Prof Pramod Kumar. Silky Jain,

Executive Director, Tula's Institute, Prof Pramod Kumar, Director, Tula's Institute, Pawan Kumar Chaubey, Registrar, were also present on the occasion.
