Techies to participate in XIMB course

Statesman News Service

BHUBANESWAR, May 3. — At least 150 engineering students from different colleges of Orissa, Jharkhand and Bihar are participating in the month-long NETTECH training programme at the Xavier Institute of Management, Bhubaneswar.

The Linux networking certificate programme which is an annual sum-

mer event started here today with a joint session addressed by Dr Gopal Krishna Nayak, professor, Information Systems.

Another NETTECH programme will start from 16 May at XLRI, Jamshedpur.

Both programmes are designed to increase the base of technical knowledge on Linux and Linux-based solutions in the market today, giving consumers the confidence

they need. Linux is the fastest growing server operating environment, Mr Swapan Purkait, manager Nettech, said.

He said unlike in the software segment, the advantage of networking products is that they continue to co-exist in the market.

A partnership has been established between IT business and B-Schools through such programmes.
